Bio-resumen:	Marcelo Gómez, DVM (UACH, Chile), PhD en Veterinary Sciences (Virginia Tech, USA, 2005), es Profesor titular de Anatomía Veterinaria y Neurología Veterinaria en la Universidad Austral de Chile (UACH) desde 1996. Sus principales temas de interés de investigación se centran en morfología veterinaria, neurología veterinaria y neuroparasitosis en animales domésticos. Ha publicado más de 40 artículos científicos sobre estos temas y colaborado en varios capítulos de libros. Participa activamente en la docencia e investigación clínica en áreas de su especialidad y supervisa a estudiantes de pregrado y posgrado (magister/doctorado) en la UACH.
